Sources, by Origin.....	19.....	30

PREFACE

Statistics in this publication include bulk steamer, ocean barge, and plane unloads of most agricultural products from sources outside the State and from the outlying islands, as well as marketings from the Island of Oahu. Although direct imports made by the Armed Forces are excluded, quantities sold to commissary stores and sales to the Armed Forces by local dealers are included. Supplies of fresh fruits and vegetables from the State include quantities for fresh market as well as processing, and also ~~out-~~shipments from the State. Several items of minor importance are excluded and taro for poi manufacture is grouped with miscellaneous commodities. Marketings of poultry and fluid milk are from all farms; and marketings of beef and swine products are from total slaughter figures. Unload data on meats do not include meats in any processed forms.

Explanation of Data in Summary Tables

Fruits and vegetables of minor importance were omitted in Table 1; the quantities given include only those commodities listed in Table 1, page 9. Data generally have been rounded to thousands of pounds, except for eggs and livestock. Dressed poultry data are on an eviscerated basis for easier comparison of quantities received from the several sources. Oahu slaughter of hogs includes animals imported from the U.S. Mainland as well as unloads from the outer islands; and therefore, does not signify that all hogs slaughtered originated on Oahu farms. Cattle and sheep slaughter include animals raised on the neighbor islands.

In the index charts, the year 1950 has been selected as a base because it was least affected by factors that would tend to distort the normal flow of supplies.

ACKNOWLEDGEMENT

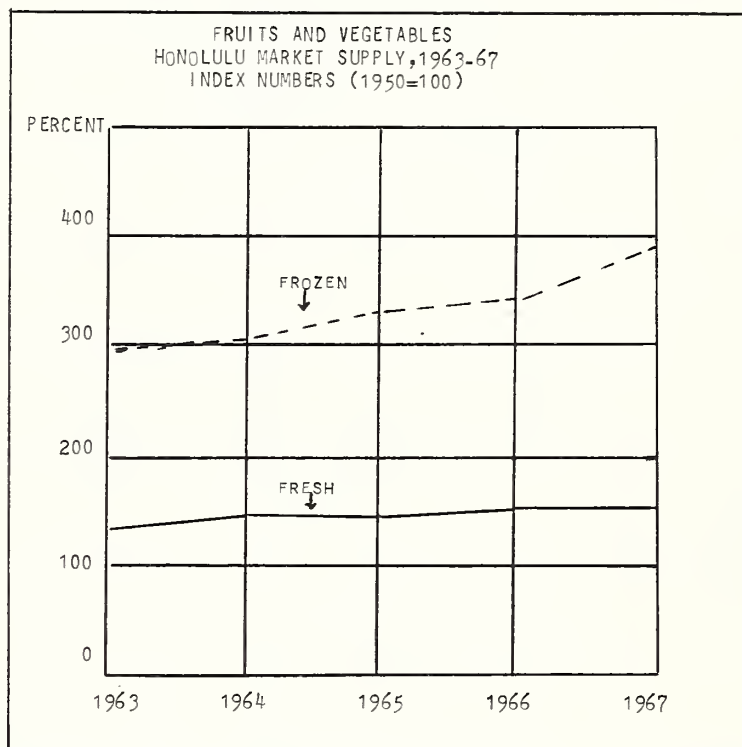

The Federal-State Market News work was made possible through the cooperation of the Consumer and Marketing Service, United States Department of Agriculture, and the Hawaii State Department of Agriculture. The Department of Agriculture gratefully acknowledges the assistance of all those who contributed information. Steamship, barge, and air transportation companies furnished the unload data; records of Oahu truck receipts were obtained from wholesalers.

5-YEAR SUMMARY OF HONOLULU MARKET SUPPLIES

FRESH AND FROZEN FRUITS AND VEGETABLES

The total Honolulu market supply of fresh fruits and vegetables in 1967 was 138.7 million pounds, an increase of 6.5 million pounds or 4.9 percent from 1966. This represents the greatest volume of fresh produce marketed during the 5-year period. Climatically, the year 1967 was about normal without extreme adverse weather. However, supplies from Oahu and the neighboring islands decreased 3.8 million pounds as compared with 1966. To meet the increased market requirements, the combined imports from the U.S. Mainland and foreign sources showed an increase of 10.2 million pounds.

In 1967, of the total marketings of fresh fruits and vegetables, supplies from the mainland led with 58.2 percent; neighbor island truck croppers produced 27.6 percent; Oahu farmers contributed 13.1 percent and foreign imports 1.1 percent.

Mainland in-shipments of frozen fruits and vegetables continued to increase steadily over the 5-year period coinciding with increased demand. 1967 imports from the U. S. Mainland totaled 4.7 million pounds, an increase of 0.6 million pounds over 1966.

SELECTED DAIRY PRODUCTS AND OLEOMARGARINE

In 1967, production of fluid milk on Oahu amounted to 123.2 million pounds, a decrease of 5.0 million pounds, or 3.9 percent below a year ago.

Imports of both dairy products and oleomargarine showed an increase over 1966. In-shipments of butter increased 0.5 million pounds. Cheese and oleomargarine imports reported gains of 0.7 million pounds each.

POULTRY PRODUCTS

Eggs: In 1967, the total volume of fresh eggs amounted to 463.3 thousand cases (30 dozen), an increase of 26.2 thousand cases or 6.0 percent over 1966. Although unloads of eggs from the neighboring islands decreased 10.2 thousand cases, Oahu's marketings showed an increase of 33.0 thousand cases and in-shipments from the U.S. Mainland gained 3.4 thousand cases to meet the Honolulu market requirements. During the 5-year period from 1963 to 1967, only egg supply from Oahu continued the upward trend without a break.

During the 4-year period from 1964-1967, the neighbor island marketings of eggs decreased a substantial 44.6 percent while Oahu's production increased 18.2 percent over 1964. It is noteworthy that state poultry men averaged 92.0 percent of the total supply during the 5-year period from 1963-1967.

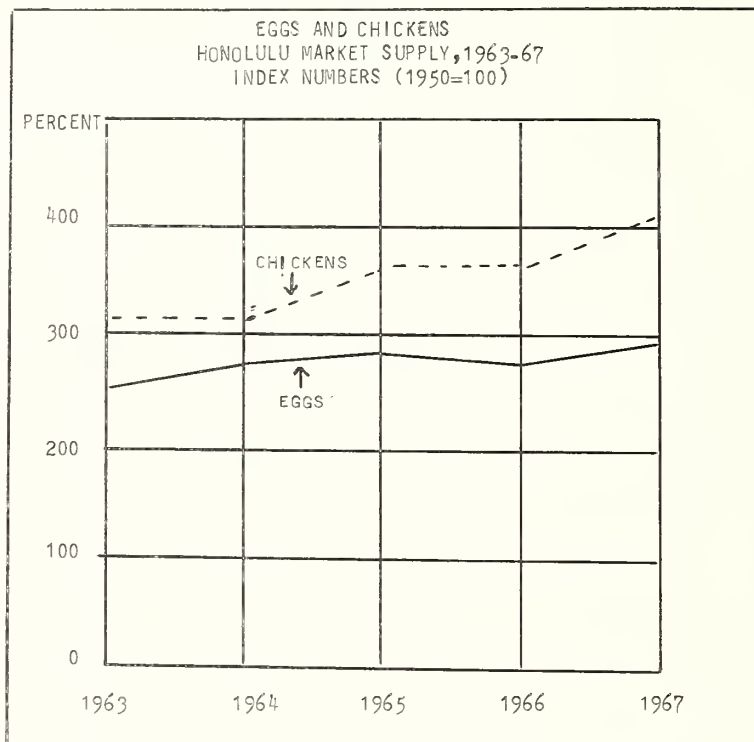

Poultry Meat: Oahu poultry meat producers marketed 4.0 million pounds of poultry meat in 1967, which is only 27 percent of the total supply as compared to 40 percent in 1963. The total Honolulu market supply in 1967 was 14.6 million pounds, and 110 million pounds in 1963.

In 1967, the total supply of poultry meat was 3.6 million pounds more than in 1963, an increase of 32.7 percent; during the same period, imports from the mainland increased 4.9 million pounds or 59.8 percent; and state supply decreased 0.4 million pounds or 8.4 percent.

TOTAL RED MEATS

In 1967, the Honolulu market supply of fresh, chilled and frozen red meats amounted to 73.1 million pounds, an increase of 3.4 million pounds, or 4.9 percent, over 1966. Imports from the U. S. Mainland were up 2.0 million pounds, or 7.8 percent; state marketings increased 1.6 million pounds, or 6.0 percent; while foreign imports showed a decrease of 0.2 million pounds, or 1.5 percent from 1966.

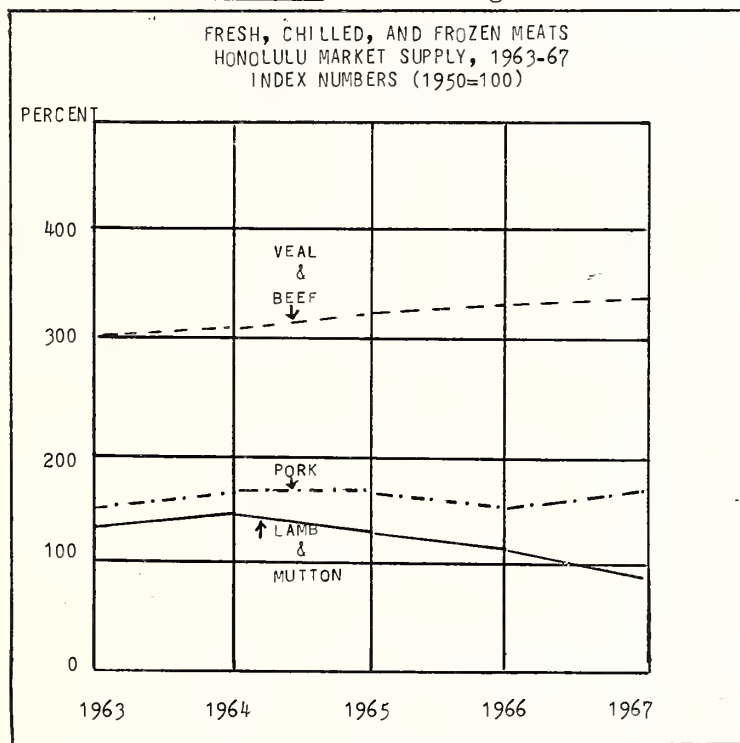

Beef and Veal: A total of 53.4 million pounds of beef and veal were marketed in Honolulu in 1967, an increase of 1.3 million pounds, or 2.4 percent, over 1966. Imports

from both the U. S. Mainland and foreign countries declined in 1966 but state beef and veal producers continued to increase their marketings to offset the decline in imports. State marketings totaled 22.4 million pounds which constituted 42.0 percent of the total supply, the highest percentage of the total supply during the past 5 years.

Pork: The Honolulu market supply of pork amounted to nearly 19.0 million pounds in 1967. This represented an increase of 2.3 million pounds, or 13.7 percent, over 1966. Imports from the mainland increased 2.8 million pounds, or 27.5 percent over 1966, while marketings of state produced pork decreased 0.5 million pounds or 7.6 percent.

Lamb and Mutton: Marketings of lamb and mutton in 1967 totaled 694,000 pounds,

representing a 17.3 percent decrease from 1966. Imports from both the U. S. Mainland and from the foreign countries declined in 1966. All of the lamb and mutton in the Honolulu markets were of out-of-state origin.
